## 2'S PROGRAM

For many children, this is their first experience away from their family. Our focus is on learning to follow directions from someone other than their grown up, and learning to share and developing social skills. Beginning Math, Language & Literacy, Nature and Science and Art and Music concepts are introduced through play. This program uses the Creative Curriculum as the teacher guide. There are nine children in a class with a Lead Teacher and a Teaching Assistant. Children who stay all day will need a nap mat with pillow attached or a small blanket.

## 3'S PROGRAM

Our 3's program continues to build upon the Social and Emotional Skills that the children are developing. Our curriculum, Children Explore Their World, is a hands-on project approach curriculum enriched in a foundation of science and exploration. The curriculum approaches Mathematics' development, Language, Literacy & Communication, Nature and Science, Social and Emotional development, Approaches to learning, Scientific reasoning and Motor and physical development through content-rich projects that build upon children's knowledge and increase in complexity. Our spacious rooms allow us to offer a class size of up to 18 children with a Lead Teacher and two Teaching Assistants. This provides opportunity for multiple learning groups within the classroom.

Extended Care options are available, and hours can be added to build a full schedule M-F 7am-6pm.

## PRE-K PROGRAM

Asbury's 4's programs align with the Maryland Model for College and Career Readiness, introducing the social and academic readiness skills to prepare children for their formal learning experience of kindergarten. Our fours programs use the Children Study Their World Curriculum. The curriculum approaches Mathematics' development, Language, Literacy & Communication, Nature and Science, Social and Emotional development, Approaches to learning, Scientific reasoning and Motor and physical development through content-rich projects that build upon children's knowledge and increase in complexity. Our spacious rooms allow us to offer a class size of up to 18 children with a Lead Teacher and a Teaching Assistant. This provides opportunity for multiple learning groups within the classroom.

Extended Care options are available to build a full time schedule M-F 7am-6pm

## EXTENDED LEARNING/EXT. CARE

Extended learning/care is a wraparound program for children in our 3's and 4's program. Extended care is available from 7:00am to 6:00pm.

Our Extended learning Program can be used in addition to your child's preschool program. During the hours of 9:00-12:30pm, the Extended learning program offers an enrichment program which utilizes the projects of Creative Curriculum, allowing the child to guide their learning experience through exploration. This program is rich in Language and offers a broad range of knowledge as well as allowing children multiple opportunities for explorative and imaginative play.

Our extended care program is offered to families looking for childcare hours in addition to their child's preschool schedule.
