

Homework Agreement 2019-2020

We ask that you and your child discuss whether or not s/he should work on homework during our program. We feel that we can provide the best homework assistance when staff, children, and families have a clear understanding about how this will work. In addition, we find it helpful to have some information from both parents/guardians and student about how to best support homework efforts.

My child and I have decided that s/he: _____
